Request for Public Consultation Regulations of the Provision of Private Wireless Telecommunication Networks Services

October 2022
1. Introduction:

The Communications and Information Technology Commission (CITC) seeks to enable digital transformation in the Kingdom for various vital sectors. This digital transformation will contribute to providing reliable communications, which will enhance many industrial applications such as controlling and sensing systems, critical communications, and the Industrial Internet of Things. In order to complement the objectives of the CITC (2019-2023) strategy, CITC is pleased to publish a Public Consultation document on Information Memorandum for the "Regulations of the Provision of Private Wireless Telecommunication Networks Services".

2. Scope and Objective of Document:

The purpose of this public consultation is to provide the interested parties with an opportunity to submit their views and comments on the regulatory document “Regulations of the Provision of Private Wireless Telecommunication Networks Services”. This regulatory document was prepared to achieve the vision of CITC in creating and promoting a fair and competitive environment in all telecommunications fields, and achieve clarity and transparency in all procedures, which in turn will promote the development of innovative radio technologies for Private Wireless Telecommunication Networks Services.

3. Participation:

Participants wishing to submit their views on the document must submit them to the Communication and Information Technology Commission no later than 19 October 2022. Opinions and comments can be sent using one or all of the following methods:

3.1 Through the Unified Platform "Istitlaa" for receiving public consultations via (https://istitlaa.ncc.gov.sa).

3.3 Through email to: (Spectrum.Strategy@citc.gov.sa).

3.4 Through written delivery (paper and electronic) at the Headquarters of the Communications and Information Technology Commission or by mail to:
Communications and Information Technology Commission
Al Nakheel District
Prince Turki bin Abdul Aziz I Street intersection with Imam Saud bin Abdul Aziz Road
75606 Riyadh 11588
Saudi Arabia

The Telecommunications and Information Technology Commission calls on all relevant parties and interested people inside and outside the Kingdom from all sectors to provide comments, observations and suggestions on this document. The Commission encourages provision of comments supported by the required details, justifications, analytical studies, benchmarks and other information, if any, in accordance with the format shown below, given that what is provided in this regard is not binding on the Commission. The Commission also reserves its absolute right to publish or not publish all comments on the public consultation request if it deems it appropriate.
